NOTE TO THE DCI

[redacted] of TIME Magazine has requested to see you in the next day or two about a lengthy, special report TIME is doing on Central America for next week's edition. The article will cover the entire scope of the Central American affair and include a profile on National Security Adviser Clark and one on Ambassador Kirkpatrick. [redacted] wants to get your impressions on Clark and Kirkpatrick as well as discuss other issues related to Central America. He would like the session on deepest background but not off-the-record.

My view is you shouldn't touch this. I will await your decision.
